

# KIDS FLY HIGH

# FLY HIGH COLLECTION

When the night falls in a child's bedroom...  
The constellations come into life through the cherished toys and the journey  
to imagination begins. Let's fly high...

# Auriga

I am looking for a while now at the rocking horse that my godmother brought me.  
I think it's moving. "It's true my dear friend, my name is Auriga and together  
we will go on the best journey of your life. Ready to travel from cloud to cloud?"

# Andromeda

There is a shadow in the room. Someone is with me. Who?

“Don’t be afraid, I’m Andromeda”, an old porcelain doll said. “We’ve been together for a long time and I think it’s time we met. Come on, let’s go for a walk”.

“Where to?”, I asked timidly. “To the stars”, she responded and we flew high.

# Centaurus

This morning mom hang the new puppets on the wall.  
I don't quite like them but one of them seems special. "And I really am.  
I am Centaurus and if you follow me, the sky, the galaxies, the universe won't seem  
to you that far anymore. You feel like to?"

# Perseus

I am really happy. I am not alone. The only thing I have to do  
is to wind my little toy soldier, Perseus, and he will keep me company. There you go!  
“There is more, my loyal friend! Together we will go high, over the sky! Get ready!”

# Phoenix

The dark has fallen but Phoenix, my imaginary rocket which helps me travel every night, doesn't look like being in the mood for our regular journey.

“Of course I am, I was just a bit delayed tonight. So?  
Which planet is waiting for you today?”

# Orion

Orion, the handsome prince who reigns in the kingdom of my room, is never late.

Tonight he has promised me a different kind of journey.

“Tonight you will meet my real kingdom, my own world”, he said and winked at me  
this morning. I can’t wait!

The de-code effect.

The modern furniture construction company has entered dynamically in the sector with the creation of innovative furniture that distinguishes for its special style.

Advanced technology meets long experience at the handmade constructions leading to the de-code effect. Always with respect to human, nature and raw materials, innovative products are designed which are able to be passed to the international markets as well as to prevail among the strongest companies.

In order to accomplish the specific goal, de-code has formed cooperation relations with internationally renowned Greek designers who give prominence to the completeness of handmade constructions, the continuity of design, material quality and the usability of minimal aesthetics.

Main principal of the company is to invest in long-term relations with both partners and clients. At the same time, terms such as consistency and reliability constitute fundamental characteristics for de-code given that its people are always punctual at their deliver time, flexible at any adjustments of the design and construction and incompatible with the quality and continuity of the materials.

**LIVING, KIDS, CONTRACT.** The three categories constitute the basic axis of de-code, according to which the products are manufactured.

**LIVING.** Your personal space acquires substance through furniture that responds perfectly to the demands of the times. Eminent designers of the sector were based on simple lines, natural colors and quality materials so as to create your own cozy ambient.

**KIDS.** The need for constant adjustment of a kid's room, a need that goes hand in hand with the factor "time", has led de-code to the formation of rooms that accompany the child at all phases of his infantile and later, adolescent life.

Light colors and warm wood details reinforce the minimal design.

**CONTRACT.** The hotel equipment moves to a new dimension. After the study of the space, the company suggests the most suitable solutions which meet not only the style of the hotel but of the clients as well. Design meets ergonomics and initiates you to the world of luxury and well-being.

de-code Dyes – Raw Materials

Colors with waters soluble ecological varnishes

For flawless finishings, we use superior quality water soluble ecological varnishes of high standards against humidity.

They distinguish for their long - term resistance thanks to their high flexibility and excellent UV protection. Additionally, because of their great levels of water content, they are considered fireproof, odorless, non-toxic, waterproof, warp and contractions - dilation resistant.

Pure natural wood

de-code furniture are manufactured according to the greatest EU standards of solid pitch pine, beech plywood, mdf with veneer of category E1.

Ecology

de-code is perfectly tuned with EU legislation regarding the raw materials supply as it utilizes wood that strictly derives from controlled logging and reforestation areas.

The fact that de-code utilizes wood which is controlled and doesn't contain hazardous substances such as pesticides and radiation while at the same time it has zero formaldehyde emissions, is quite important.
